

Book: Malvinas 40 Years

written by Dan Hagedorn | February 13, 2023

Internationally renowned aviation artist Carlos Adrián García has released his latest collection in the 80-page, full-color book titled “Malvinas 40 años: Pinturas de acciones aéreas con los relatos de sus protagonistas.” After years of interviews with surviving Argentine Air Force, Army and Naval air crews, who verified the action painting included in this amazing collection, Carlos has provided us with an incredibly detailed vantage point from which to see some of the principal events, as well as a few little-known incidents of 40 years ago. The accompanying narrative, in Spanish, has incorporated more numerous elements of recent scholarship, which expands and completes our understanding of this conflict.
